

# FOR SALE

## 2014 RV-12 ELSA

This award winning RV-12 is for sale by the original builder/owner who completed 6 previous builds. This airplane won an Outstanding Workmanship award at AirVenture 2014 in the Kit Built category and was featured in Sport Aviation magazine November 2014. It is a bone-stock ELSA but with many cosmetic improvements. Priced \$25,000 less than a comparable SLSA but includes many extras not found anywhere else! Why buy a SLSA that looks like every other SLSA, and then pay mechanics to maintain it when you can purchase this for less and maintain it yourself (after attending a 16 hour LSA Repairman class)?

The entire construction of this aircraft is documented on the web at:  
[www.rv12-pflanzer-aviation.com](http://www.rv12-pflanzer-aviation.com)
